ANSWER SHEET

I am doing a project on the main advantages of living in a big city. I have found some data on this subject and I would like to analyze it. ³⁰

The table demonstrates ~~of~~ us different opinions of the responders on the topic "advantages of living in a city". The most popular option (36%) is "Better opportunities for work and study". The least popular option (7%) is "Better facilities for sports and art education". ³³

Now I am going to compare the options in the table. The options "Better opportunities for work and study" (36%) and "Having all the modern conveniences" (26%) are quite similar. They are different only in ten percents. ^{gr} I suppose their relevance can be explained by the fact that people are always looking for well-paid job and great career opportunities. Despite this, people want to have all comfortable conveniences for living too.

However, living in a big city has some disadvantages. The most serious problems are environmental problems. People are suffered from water pollution, factories and air pollution. The only way to solve these problems is taking care of nature, trying to reduce the amount of exhausted fumes and rubbish.

In my opinion, ^{living} life in a large city better ^{gr} than living in a village because of the career opportunities and entertainments that it gives. I am not used to live in a quite ^{gr} places. without noise of cars and ^{gr} crowds of ^{lex} people. I would prefer ^{lex} to live in a ^{or} big city.
