ANSWER SHEET

WRITING

I am currently doing a project on the major advantages of living in a city. I have found a table with the results of a relevant survey and I am going to comment on this data and give my opinion about the subject of the project.

According to the data, answering the survey, 36% of the respondents choose the option „better opportunities for work and study“. The second most popular option is „having all the modern conveniences“, chosen by 26% of the respondents. The least common response is „better facilities for sports and art education“, with only 7%.

It can be seen from the data that most of the people are worried about having better opportunities for work and study, whereas having better facilities for sports and art education is not that important. They want to have a better life in the future by earning a lot of money and not very interested in sports and art.

It is worth mentioning that some problems can arise with living in a city. One of them is that there may be noisy neighbours ~~who~~ who listen to loud music. To solve this, people need to ask them politely to stop listening to it ~~and~~ and if the neighbours do not do it people can call the police to make them stop.

In conclusion, I am convinced that life in a big city is good because people have a lot of
