ANSWER SHEET

WRITING

The issue connected with living in a city is relevant these days that is why I have chosen a project on the major advantages of living in a city. I have found some data presented in a table and I am going to analyse the ~~results~~ results of the ~~polls~~ polls and express my opinion on the subject of the project. <sup>opinion</sup>

According to the ~~table~~ table the option "having all the modern conveniences" is chosen by 26% of the respondents. 22% of the surveyed chose the option "various entertainment and events" and 9% of the polled opt for the option "Better roads and infrastructure". <sup>lex</sup>

Not surprisingly, that the option "Better opportunities for work and study" is more popular than the option "Better facilities for sports and art education". That is 36% and 4% respectively. This difference can be explained by the fact ~~that~~ that hobbies are the things ~~that~~ you can do independently of the area ~~where~~ where you are: urban or rural, while big cities have a great merit when it comes to work and study opportunities.

In conclusion, I believe that life in a big city is much more convenient than life in the country side, as you do not have to go for long distances to get to ~~infrastructure~~ infrastructure. <sup>lex</sup>
