ANSWER SHEET

Nowadays, the ~~more~~ most of people live in cities. As part of my project on the ~~major major~~ major advantages of living in a city, I have found the results of a table. I am going to describe them and express my opinion.

According to the table, answering the question "What are the ~~major major~~ major advantages of living in a "city?" 36% of respondents chose "Better opportunities for work and study". This is the most popular option. The most unpopular one is "Better facilities for sports and art education". Only 7% of respondents chose this response.

It is worth mentioning that comparing two options "Better opportunities for work and study" (36%) and "Better roads and infrastructure" (9%) the difference is 27%. This may be because nowadays education is important for getting a good job. That* is why young people feel like choosing the cities where they can get a good well-paid job and be wanted as ~~profes~~ professionals. In this way it does not matter, if the city is well-maintained or not.

Unfortunately, there are some problems that can arise with living in a city. One of them is heavy traffic. One possible solution not^{to} be late because of them? is coming somewhere in advance. In this case a person will be sure that he will be in a certain place on time.

In conclusion, I should say that it is great to live in a big city because (people have a lot of) there are a lot of entertainments and possibilities for studying work and study there.

AG.
